IE Computing Account Memo for **Yeung Man (S1155203181)**

UNIX/Email Account Information:

Login Name	ym023
Password	9550a617
Email Address	ym023@ie.cuhk.edu.hk
Online Storage	10GB

The UNIX/Email account is used for you to login your IE email account, Linux machines (lx1-4), IE linux gateway, IE VPN, IE Intranet, and other IE Websites which require IE account authentication etc.

Please note that most of the department correspondences will be sent to your IE email account, with a copy to your CUHK and your registered 3rd party email account. You are advised to use your CUHK email account for those dept. email correspondences. Using outside free email addresses will have a risk to be filtered by our email gateway accidentally. As a quick start, you can login your account or our IE webmail (<http://webmail.ie.cuhk.edu.hk>) to read those mails. Please visit <http://wiki.ie.cuhk.edu.hk> for detail information like setup of email accounts, changing of password, login IE SSLVPN, and read the IE Network Acceptable Use Policies.

If you have any problem, you can contact us by sending email to service@ie.cuhk.edu.hk or come to IE Lab Office (Rm1005, MWM Engineering Building) for undergraduate and IE TSC (Rm701B, Ho Sin Hang Engineering Building) for Postgraduate.

Yours sincerely,
IE SysAdmin.
